LAWRENCE BEAMEN · UNITY · WORSHIP

A congregational cry for revival — short, redundant, unforgettable. Written for church bodies who want to burn together, not perform together.

LYRICS

Sing it in the secret place

Ignite us, O Lord, we pray.
Ignite us in every way.
For each one can reach one
by the life that we live.
Ignite us and bring us together,
O Lord, we pray.

Ignite us, O Lord, we pray.
Ignite us in every way.
For each one can reach one
by the life that we live.
Ignite us and bring us together,
O Lord, we pray.

Lord, send Your power down.
So that we can be blessed right now.
For in Your word You told us to pray,
give us this day our daily bread.
Revive our souls, we ask of Thee,
O Lord, we pray.

Ignite us, O Lord, we pray.
Ignite us in every way.
For each one can reach one
by the life that we live.
Ignite us and bring us together,
O Lord, we pray.

Into The Storehouse (We Give Thee But Thine Own)

GOSPEL

Perfect For: The NEW anthem for tithes and offerings, stewardship campaigns, and church celebrations. An uplifting offering song that brings fresh energy to giving while reinforcing the biblical principles of generosity and stewardship.

LYRICS

Sing it in the secret place

Bring all the tithes
into the storehouse,
let there be meat in my house.
Saith the Lord, I'll bless you;
there'll be no room to receive it.
Pressed down, shaken together,
running over.
Saith the Lord.
Saith the Lord.

I give from my heart
for all You've done for me.
I can't keep it to myself.
You're why I live, now I'm rejoicing
while I'm giving.

LAWRENCE BEAMEN · GIVING · PRAISE

An upbeat, jazz-driven anthem of joyful giving — built for congregations to clap, move, and remember the promise behind the tithe.

Contributor System — Fill in the Blanks

A single admin form drives every song page, artist profile, and credits sheet. Enter the data once and it appears everywhere it belongs.

1. Song Metadata (per song)

Title · Genre tags (CCM, Praise & Worship, Soulful Gospel, etc.) · **Perfect For** description (1–2 sentences) · BPM · Key · Duration · Lyric video URL · Cover art · Release date · Use-case tags (Revivals, Tithes & Offerings, Stewardship, Camp Meetings, Sunday Service, etc.)

2. Contributor Profile (per person, reused across every song they touch)

Identity: Full name · Stage name · Pronouns · Primary role · Additional roles · City / State / Country · Photo · Hero image

Biography: Short bio (1–2 sentences) · Long bio (150–300 words)

Craft: Instruments · Genres · Signature style notes

Recognition: Career highlights · Awards · TV appearances · Tours · Major credits · Collaborations

Contact & Socials: Website · Instagram · Facebook · YouTube · Spotify · Apple Music · Management name/email · Booking email

Industry IDs: ISNI · IPI · Discogs · MusicBrainz · Spotify Artist ID · Apple Artist ID

3. Song ↔ Contributor Link (per credit)

Song · Contributor · Role on this song · Short contribution note · Featured? · Credit order

4. Recording Credits (per song)

Studio · Recording engineer · Mix engineer · Mastering engineer · Producer · Executive producer · Additional notes

Why this saves time on 400 songs

Enter each artist, producer, and musician **once**. From then on, adding a new song is: pick the song's contributors from a dropdown, type their role, save. The song page, the artist profile, the credits sheet for DSPs, and the JSON-LD schema for search engines all update automatically.

Rollout pattern for every new release

1. Add or select contributors in the admin. 2. Create the song, paste the 'Perfect For' description, tag genres and use cases. 3. Attach contributors with their roles. 4. Upload lyric video URL and cover. 5. Publish — homepage, song page, and every linked artist profile update in one save.
